MERCURY STATIONS RX

PHASE	DATE	SIGN	DEGREE
Station Rx	09/26/21	Libra	25°

PHASE MEANING:

This 8 day period is meant to be a purification process. Here we consciously or subconsciously review the successes and failures of the previous Mercury cycle. (05/30/21 - 05/22/21) During this time we have the opportunity to consciously decide what needs to be introduced into our thought processes and we can see more easily what past mistakes may need correcting.

This is a seeding period and not meant for outer exertion. Rest. Lessen mental stimulation. Engage in activities that calm the nervous system regularly. Tend to your mind during the next 13 days.

JOURNAL PROMPTS:

09/26/21 - 10/02/21

Think back to what was happening in your life during the last Mercurial cycle.

- What were the main events occurring from late May to mid-August?
- How did these events affect you mentally, emotionally, physically and spiritually?

Mercury is represented by the Messenger God Hermes and in Libra he moves with the power and strength of the Cardinality of this sign. Here Hermes is asking us to tap into our ability to balance and harmonize our nervous system throughout the wild fluctuations of our life experiences.

- Think back to the most influential experiences that you've had over the last few months. How did you handle them? Could you have done things in a more balanced way? List a few things that will help you keep your inner harmony during future fluctuations.

MERCURY STATIONS RX

PHASE	DATE	SIGN	DEGREE
Station Rx	09/26/21	Libra	25°

JOURNAL PROMPTS:

10/03/21 - 10/09/21

This week the Moon, Mars and the Sun are connecting (by conjunction) with Mercury, who is opposing Chiron in the heavens. This means that 4 out of the 5 personal planets are all in conversation with one another, creating a potent time to work with perceptions and the actions that arise from them. Chiron is stimulating growth and healing and some of those inner wounds may be illuminated during this week.

- What is coming up for you this week?

- Are you feeling emotionally reactive?

It may be beneficial to remember that the goal of Libran energy is to cultivate an unbreakable inner harmony and ultimately to experience serenity. We are all being invited to work with this energy right now.

- How can you utilize Libra's ability to see the truth of both sides of a situation this week?

INFERIOR CONJUNCTION

PHASE	DATE	SIGN	DEGREE
Inferior Conjunction	10/09/21	Libra	16°

PHASE MEANING:

This 8 day period is the beginning of the new Mercury cycle, similar to a New Moon phase. Here we experience a reversal of polarity within our electromagnetic field. During this period we may become aware of solutions to problems from the previous cycle providing us the opportunity to consciously readjust all of our Mercurial functions in these areas.

This is the time to rework limiting beliefs, limiting thoughts and align our minds with more supportive thoughtforms. This period can reveal new mental attitudes necessary for our evolution.

JOURNAL PROMPTS:

10/09/21 - 10/16/21

Mercury is now the closest to Earth that it will be during its cycle, focusing the Solar energy of the Sun down onto us like a spotlight. Mars is also exactly conjunct the Sun and Mercury adding energy and a desire to experience substantial forward action. This planetary combination is an invitation to not only readjust any Mercurial matters that need shifting, but to infuse those adjustments with physical action and energy. However, you may need to wait until Mercury stations direct again to gain much solid traction.

- Are you able to see new solutions to past problems?

- How can you infuse supportive action into those solutions in a way that promotes harmony?

STATION DIRECT

PHASE	DATE	SIGN	DEGREE
Station Direct	10/17/21	Libra	10°

PHASE MEANING:

This period will last 42 days until the Superior Conjunction, when Mercury connects with the Sun once more. This time is meant to work on building and supporting the new ways of thinking that were identified during the inferior conjunction period.

It's now time to put into practice our new, more supportive and aligned thoughtforms and mental attitudes.

JOURNAL PROMPTS:

10/17/21 - 11/28/21

Mercury is now Station Direct and we are ready to put some energy behind the thoughts and feelings that we've been contemplating for the past three weeks.

How can you actively start living and embodying the changes that you've identified as being needed, in order to help support your direction toward inner harmony, balance and even serenity?

This phase of Mercury's cycle is being fully supported by Saturn, so put together some practical steps, make a list and start actioning it.

SUPERIOR CONJUNCTION

PHASE	DATE	SIGN	DEGREE
Superior Conjunction	11/28/21	Sagittarius	06°

PHASE MEANING:

This period will last until Mercury stations retrograde and prepares for the next Mercurial cycle that begins on 01/14/22. Similar to the Full Moon phase, this is a time of fulfillment and recognition of the work we have done during this cycle.

Nice work, dear one!
